

## Clubs and activities at St Hilda's

At St Hilda's we believe that children benefit from attending additional activities before or after school or at lunch time. These opportunities enable pupils to try a new activity or to learn a new skill, develop their social skills and independence and promote healthy lifestyles.

Our Breakfast Club offers a range of activities such as computing, games and puzzles and physical activities.

Various sports clubs offer opportunities to train and compete in local tournaments and competitions.

We also facilitate clubs run by external specialist staff, such as Martial Arts and sports clubs run by Oldham Sports Development.

Our choir has performed for audiences both within school and in the wider community.

Young engineers successfully participated in the Primary Engineering Project, designing and constructing their own vehicles.

Many other exciting opportunities are available – find out more today!

Through our SHAFLA (St. Hilda's and Families' Learning Association) project we also encourage families to become involved in after-school activities alongside their children.

For parents with babies and younger children our weekly Stay and Play sessions are also available.

Exciting news! St Hilda's becomes involved in the 'Oldham Pledge Passport to Success' scheme this year! More information to follow!

**For further information and details of the clubs currently running in school please contact the school office.**
